FASTRACK - PPM
SOLUTION SERVICES

BEST PRACTICE, BEST FIT

Our Fastrack PPM is the ultimate package for businesses who want to implement a fully comprehensive PPM solution of up to 50 projects a year. Using pre-configured templates we will set up complete portfolio, project and programme reporting with dashboards all with your business branding.

OBJECTIVES

- Developing project sheets, reports & dashboards to provide portfolio & project metrics & information
- Project sheets including project plans, project costs, risk & issue logs, and actions & decisions logs
- Visibility across business operational KPIs through automated dashboards with the ability to present to stakeholders with ease

WHO IS IT FOR?

- Small to medium sized businesses looking for a Project Portfolio Management (PPM) solution for up to 50 projects per year
- Those requiring a low cost but effective PPM solution with fast implementation & minimal administration
- Those with Smartsheet Advance (excluding Control Center) who are looking to utilise its vast and powerful functionalities.

What this package doesn't cover:
Smartsheet PPM solutions utilising Control Center. Please enquire about our **Fastrack Control Center** package for further support on this platform.
